HISTORY

Finca Churupampa has its origins with the Tocto Bermeo family. With the visit of Stumptown Coffee, in February 2011, the Finca Churupampa project was formed with the goal of becoming a self-sustainable, productive and comprehensive farm.

During 2013 we managed to become exporters of high-quality Coffee Origin in the cup, thanks to the support of its collaborators and producers, its philosophy of continuous improvement and reinvestment in the production unit. The Finca Churupampa model, as a self-sustainable business, is expanded to 28 coffee producing families in the towns of Tabaconas, Coipa and Chirinos, during 2015.

PRODUCER

The order is made up of producers located in the areas of Chirinos, La Coipa and Choropampa.
