Opal Coffee
Specialty Green

HISTORY

Finca San José del Lago is located in the western highlands of Guatemala, department of Sololá, right in the middle of the famous Atitlán Region. The farm stands between Volcan San Pedro and Lake Atitlan. The farm has an area of 200 ha, 45 of which are planted with coffee and the rest is an outstanding natural reserve.

Due to its topography, there are breathtaking views of the lake, the farm, the reserve and the three volcanoes that surround the lake (Atitlán, San Pedro and Tolimán).
